——————— Usual Orders and Resolutions of, touching Elections, &c. Vide Bribery. Elections. Members. Metropolitan Police. Peers. Serjeant. Votes. Witnesses.

——————— Resolutions of,—

——————— That Mr. Speaker be requested to acquaint Sir Denis Le Marchant, Baronet, that this House desires to express its sense of the manner in which he has uniformly discharged the duties of his important office during his long attendance in the service of this House, 27.

——————— That, in the opinion of this House, young men qualified by character and attainments for admission into the service of the Government of India, as Civil Engineers, ought not to be excluded from such service by reason of their not having been educated at a Government College, 69.

——————— That this House deems it desirable to reduce, by all prudent means, the Sunday labour now performed by public servants; and that it is expedient that an official inquiry should be instituted, with a view to ascertaining how far it may be practicable to effect a further reduction of the labour now performed on Sunday by the Letter-carriers and Rural Messengers in the service of the Postmaster General, 140.

——————— That discontinuing the exemption of Endowed Charities from Income Tax is a suitable method of carrying out the decision of this House against the payment of the expenses of the Charity Commission out of public funds, 148.

——————— That it is expedient that measures be adopted, in accordance with the humble Address presented to Her Majesty in February 1870, for preserving as an open space accessible to Her Majesty's subjects for purposes of health and recreation, those parts of Epping Forest which have not been inclosed with the assent of the Crown or by legal authority, 163.

——————— That, in the opinion of this House, it is desirable that Her Majesty's Government should enter into communication with the Government of the United States, in order to consider whether it would be practicable further to reduce the rates of postage between the two countries without undue charge upon the public revenue, 168.

——————— That, in the opinion of this House, pending legislation on the New Forest, no felling of ornamental timber, and no fresh inclosures, should be permitted in the New Forest; and that no timber whatever should be cut, except for the purposes of thinning the young plantations, executing necessary repairs in the Forest, and satisfying the fuel rights of the commoners, 282.

——————— That, in the opinion of this House, it is expedient that an Inquiry be instituted early in the ensuing Session of Parliament, either by a Committee of this House or by a joint Committee of both Houses, into the whole question of Metropolitan Tramways, including the following considerations:—1. Whether it is desirable or not that any fresh Tramways should be laid within the Metropolitan Area; 2. What should be the limit of the Metropolitan Area in respect of Tramways; 3. Under what authority the construction and working of Metropolitan Tramways, if any, should be placed; 4. Along what lines of Streets, if any, Tramways should be allowed to be constructed, and under what restrictions, 341.

——————— That, in the opinion of this House, no payment should be made out of the Secret Service Money by way of salaries or pensions to persons on the Staff of the Foreign Office, or belonging to the Diplomatic and Consular Services, 420.
